Comments from the survey responses:

ACTEM always has the best keynote speakers - thank you for seeking out such inspiring educators!

Joe Sanfelippo was probably the best keynote speaker I have heard!

The best part to the ACTEM conference is regardless of the session offerings one can 'order off the menu'. Come with a questions, ideas, and an open mind and you'll get great information to help your school. Thank you to all involved for making the conference possible.

This is my 25th year in a row of attending the conference. I am always amazed at the variety of workshops and sessions. I also love seeing the talents of Maine tech people, teachers, and tech integrators.

ACTEM was brilliant! Great work all around! The keynote speakers were excellent, the session presenters were fantastic, and the Civic Center staff was great.

I really have a great time every year I go and I get so much out of each session that I attend. We are hoping to convince our Admins that we'd love to bring our (district) for a professional development day!
