SPRING LEADERSHIP CONFERENCE | 2022

Supporting Learning Through Technology

May 3, 2022

Holiday Inn by the Bay • Portland, ME

The mission of ACTEM is to enhance and influence education in Maine through the use of technology.

ACTEM...

- is a non-profit 501c3 educational association that has been in existence in Maine since the 1990's.
- is an independent, dynamic professional organization, which strives to influence quality teaching and learning through the effective use of technology.
- supports its members by providing relevant professional development opportunities and resources, by aiding schools with education technology initiatives, and by functioning as a purchasing consortium.
- empowers its members to leverage new and existing technology innovations to meet educational goals.
- advocates for its members as a proactive voice in State and National discussions on education technology policy and initiatives.

ACTEM members...

- Any Maine educator with an interest in education, technology, and ACTEM's mission is invited to become an **individual member**.
- Any Maine School or District that would like to participate in our purchasing consortium is invited to become an **institutional member**.
- Any company or corporation that would like to support ACTEM and our mission is invited to become a **Corporate/Vendor member**.

Joining ACTEM...

- Go to the following link and complete an online membership form:
www.actem.org/join
- ACTEM has a fixed membership year that runs from July 1st through June 30th annually.
- **Conference Membership Special:** Any membership form completed after May 1, 2022 will include a 14-month membership through June 30, 2023

Contacting ACTEM...

Web: www.actem.org
Address: P.O. Box 187, Gorham, ME 04038
Phone: 207-222-4353 **FAX:** 207-222-2057
Email: director@actem.org

ACTEM Member Benefits...

CONFERENCE | Our fall conference is the largest educational technology event in Maine for educators and administrators.

- The 2-day conference typically features over 150 workshops sessions, national keynote speakers and 30+ vendors in the exhibit hall.

Our Spring Leadership conference features topics important to Maine technology leaders and staff.

NEWS | ACTEM publishes a quarterly newsletter, *The Connected Educator* with articles of interest to educators in Maine including upcoming professional development, events and conferences. The newsletter archive can be found here:

www.actem.org/page-1752552

AWARDS | Our ACHIEVE Awards recognizes and honors exceptional Maine educators that are highly innovative and effectively apply available technology in their schools and districts.

- Award winners receive \$2,000 cash and their school or district receives a \$1,000 gift certificate for technology related products or services.

- Information about ACTEM's ACHIEVE award can be found at:

www.actem.org/AchieveAward

PROFESSIONAL DEVELOPMENT | ACTEM organizes and provide a variety of professional development events for Maine Educators annually.

PD REIMBURSEMENT PROGRAM | Members are invited to apply for assistance in the form of reimbursement on qualifying technology PD activities that are not funded by their local district.

- Must be a current individual member for a minimum of 180 days

- Maximum of \$400 per membership year

- Information and requirements can be found at:

www.actem.org/ACTEM-PD

OVERDRIVE PD LIBRARY | A collection of eBooks and Audio books for our members to borrow from the online PD library. The online library collection can be found at: **<https://soraapp.com/welcome/login/202974>**

PURCHASING CONSORTIUM | ACTEM offers significant price savings on popular software titles from Adobe, Filemaker, Microsoft, Sophos and other vendors. ACTEM looks to partner with vendors that can offer better pricing for Maine schools and hopefully offer something in return in the way of funding to assist ACTEM with our mission.

LISTSERVE | The ACTEM listserv has been established as a mechanism for information exchange and problem resolution for use by those interested in enhancing and influencing education through the use of technology in Maine schools.

Welcome

Welcome to ACTEM's fifth Spring Leadership Conference! We are glad to be back together in-person after a couple years of virtual conferences. This year's theme focuses on **Supporting Learning Through Technology**. This focus has become increasingly more important for Maine Technology leaders during these Covid years.

Be sure not to miss the lunch virtual keynote by **Dr. Marc Milstein**. His keynote on **New Insights into Avoiding Burnout and Boosting Happiness** we feel is a very timely topic for Maine school technology leaders and staff.

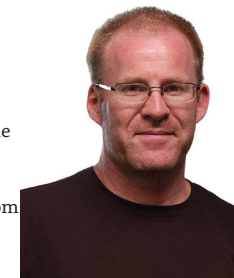

Please be sure to visit the many exhibitors that have supported our efforts to bring this conference to you. Dedicated time slots are built into the conference program for you to visit the exhibit hall.

We hope that you enjoy this conference and gain valuable information, tips, and suggestions from our workshops and exhibitors to bring back to your districts.

Please look for a post conference survey to provide feedback and suggestions for future ACTEM events.

Enjoy the day!

Will Backman

Keynote

Dr. Marc Milstein

New Insights into Avoiding Burnout and Boosting Happiness

Dr. Milstein presentations provide science-based solutions to keep the brain healthy, lower the risk of dementia, boost productivity and maximize longevity. He earned both his Ph.D. in Biological Chemistry and his Bachelor of Science in Molecular, Cellular, and Developmental Biology from UCLA.

B.B. King famously sang "The Thrill is Gone." This in many ways describes burnout - the feeling of exhaustion, cynicism, loss of motivation and productivity. It is often described as the absence of joy or the "spark" is gone. But burnout is not just about jobs and careers. There is caregiver burnout, parental burnout and just burnout towards day-to-day life. These feelings are understandable in our current times, but they are not inevitable. We now know we have the power to bring the fire and joy back.

Breakthrough brain research is uncovering surprising, key actionable steps to avoid and reverse the common and debilitating feelings of burnout. Effectively lessening stress and burnout as well as boosting happiness is one of the most powerful actions we can take to lower risk of dementia, heart disease, depression, anxiety as well as improve sleep, memory, and productivity. In this presentation you will learn those key actionable, empowering, and surprising take home tips to significantly lessen burnout and boost happiness in highly stressful environments.

	CONFERENCE SCHEDULE, WORKSHOP DESCRIPTIONS & ROOMS			Exhibitors	
MORNING SCHEDULE	Connecticut	Rhode Island	Port of Call Lounge [Next to elevators]		
8:50 AM	Opening & Welcome Casco Bay Hall [Lower Level - G3]				
Session 1 9:00 - 9:45 AM	The Student Leadership Ambassadors of Maine Program <i>Kern Kelley & Students</i> ----- The Student Leadership Ambassadors of Maine or SLAM program is an effort from MLTI to encourage and support student agency across Maine. A free, interactive, student leadership opportunity where SLAM clubs will virtually join the growing community of student 'SLAMmers' across the state. During these events, students use online tools to create virtual products. Schools also receive media equipment to help their SLAM club. For more information visit, http://MLTI.me This workshop is offered again in Session 3	Supporting & Guiding Your Google Workspace Journey <i>Tom Woods, CDWG • Amplified for Education</i> ----- This session will cover CDW Amplified for Education services and products and how they support your schools use of Google for Education. Examples and hands-on demonstrations will include our Google for Education Audit service for console admins, Gopher tools to assist with the management and bulk changes for Chromebooks, users and groups along with a deep dive into our Little SIS tool which gives you deep insights into the usage, adoption and support of Google Classroom in your environment.	Using Technology to Foster the Joy of Reading <i>Christine Wells & Mack Moyer, Renaissance Learning</i> ----- Discover how Lalilo uses explicit, systematic phonics instruction that is aligned to the Science of Reading to help you personalize foundational literacy development for every student through innovative technology that supports great teaching and drives data informed instruction.		
	Exhibitor Time Casco Bay Hall [Lower Level - G3]				
Session 2 10:45 - 11:30 AM	MLTI 2.0 Professional Learning <i>Jon Graham & Emma Banks</i> ----- MLTI team members will share the story of MLTI Professional Learning of the past school year. How the three focus areas (digital citizenship, technology integration and digital instructional design) were addressed this year and will continue to guide the team's work next year. The team will explain how and why they pivoted from their original plan to the current approach. They will also be seeking feedback on professional learning needs and wants for the 2022-2023 school year.	What's New in Apple Education <i>Trey Bachner & Ryan Wiggins, Apple</i> ----- Great teachers and powerful technology is a powerful combination. Apple is committed to making products that unleash the potential in every student. Learn about the newest Apple products, tools, and programs for education that will accelerate student success and spark creativity in every learner. This workshop is offered again in Session 4	Maximize Student Engagement with Nearpod! <i>Kara Baker, Nearpod</i> ----- An overview of Nearpod to be used for engaging students in classroom, virtual or in a hybrid setting. Feel free to bring your devices to participate, or watch our screen provide examples of bridging the engaging features of Nearpod for teachers' everyday use. This workshop is offered again in Session 4		
	Lunch, Keynote & Exhibitor Time Casco Bay Hall [Lower Level - G3] Please visit the buffet line for your lunch. The keynote will begin shortly after Noon.				
11:30AM - 1:00PM					

Integrity
www.integrity-learning.com
 Integrity is an education technology service provider focused on enhancing teaching, learning, and administrative outcomes. For nearly two decades, Integrity has provided more than one-hundred public school districts, charter schools, and private and parochial schools with programs and services designed to converge information technology and education reform in the most affordable, reliable way. These programs and services include Network Infrastructure and Connectivity, Data Management and Analytics, School Safety and Security, and other Teaching and Learning Technologies.

Kellogg & Sovereign Consulting
www.kelloggllc.com
 Our dedicated professionals work with schools and libraries to successfully apply for E-Rate discounts on advanced telecommunication and information services.

Lightspeed Technologies
www.lightspeed-tek.com
 Lightspeed offers instructional audio solutions for several learning environments, including whole-group and small-group instruction, as well as support for distance and hybrid classrooms. Our solutions help overcome barriers to listening so students can clearly hear their teacher and receive the best instruction and support at the right time.

Nearpod
www.nearpod.com
 Nearpod is an interactive classroom tool to engage students by adding interactive activities to your lessons like polls, collaboration boards, and game-based quizzes. Students can interact and submit responses through any mobile device or laptop.

Newline Interactive
www.newline-interactive.com/usa
 Newline Interactive is a manufacturer of award-winning interactive displays, intuitive software, and other interactive innovations to improve efficiency and increase productivity in the workplace.

Newsela
www.newsela.com
 Newsela takes authentic, real world content from trusted sources and makes it instruction ready for K-12 classrooms. Each text is published at five reading levels, so content is accessible to every learner. Today, over 3.3 million teachers and 40 million students have registered with Newsela for content that's personalized to student interests, accessible to everyone, aligned to instructional standards, and attached to activities and reporting that hold teachers accountable for instruction and students accountable for their work. With over 15,000 texts on our platform and 10 new texts published every day across 20+ genres, Newsela enables educators to go deep on any subject they choose.

Ockers Company
www.ockers.com
 Ockers' primary markets include businesses of every type and size; educational institutions at every level; state and local governments plus various vertical industries including healthcare, financial and others. Whatever your organization's IT, communications and visual technology product requirements... Ockers is your trusted, single-source provider with an acclaimed history of customer satisfaction since 1921.

Pro AV Systems
www.proavsi.com
 Pro AV Systems is an Audio Visual Integrator in New England, specializing in front of classroom technology, sound systems, cafe/auditoriums and other speciality AV spaces.

Second Life Mac
www.secondlifemac.com
 Our mission is to help organizations use the most up-to-date technology in the most cost-effective way possible. Most districts refresh their Apple iPads, Macs, and other devices every three years. We've worked with thousands of schools and businesses to help them get top dollar for these pre-owned devices. Our simple and transparent approach is nearly hands-off for you.

Sophos
www.sophos.com
 Sophos is a worldwide leader in next-generation cybersecurity, protecting more than 500,000 organizations and millions of consumers in more than 150 countries from today's most advanced cyberthreats. Cybersecurity - Endpoint Protection, Firewalls, Email Security, MDM, 24/7 Security Services.

Renaissance Learning
www.renaissance.com
 Renaissance is a global leader in assessment, reading, and math solutions for pre-K–12 schools and districts. Our portfolio includes solutions for assessment (Star Assessments and myIGDIs for Preschool); practice (Accelerated Reader, myON, Freckle, and Lalilo); data-driven insights (Schoolzilla); and teacher-facilitated instructional delivery (Nearpod).

VoDaVi Technologies
www.vodavitechnologies.com
 VoDaVi Technologies provides Business Technology Solutions, as well as Professional and Managed IT Services to businesses, school systems, municipalities, and non-profit organizations throughout New England. Our experts tailor individual solutions, approaches and resources to solve organizations business problems, achieve goals, and reduce overall technology costs with a proactive, preventative approach towards IT management.

CONFERENCE SCHEDULE, WORKSHOP DESCRIPTIONS & ROOMS				CONFERENCE SCHEDULE, WORKSHOP DESCRIPTIONS & ROOMS		
AFTERNOON SCHEDULE	Connecticut	Rhode Island	Port of Call Lounge [Next to elevators]	Vermont	New Hampshire	Massachusetts
Session 3 1:00 - 1:45 PM	The Student Leadership Ambassadors of Maine Program <i>Kern Kelley & Students</i> ----- The Student Leadership Ambassadors of Maine or SLAM program is an effort from MLTI to encourage and support student agency across Maine. A free, interactive, student leadership opportunity where SLAM clubs will virtually join the growing community of student 'SLAMmers' across the state. During these events, students use online tools to create virtual products. Schools also receive media equipment to help their SLAM club. For more information visit, http://MLTI.me	Google Workspace for Education Fundamentals - Admin Best Practices <i>Tom Woods, CDWG - Amplified for Education</i> ----- The Admin Console has thousands of policy settings and controls. Do you have them all set correctly for your K-12 environment? In this session we will look at common pitfalls and best practices for getting your domain setup to educational best practices for staff and students. Our team has completed over 2,000 Google for Education Audits for schools across North America and these findings power this presentation.	Level up your Math Practice <i>Christine Wells & Mack Moyer - Renaissance Learning</i> ----- Target math skills and standards through personalized math practice and adaptive math pathways with an engaging program, Freckle, that is student-centered and teacher-driven.	CyberSecurity and Cyber Insurance <i>Corey Jimmo & Mike von Zweck - Sophos</i> ----- Come join this session to review the latest trends and topics with CyberSecurity within education.	Controlling the controllable, a systematic approach to digital instruction and access with ClassLink! <i>Bob Chappell - ClassLink</i> ----- Digital instructional, remote learning, blended, in person; it all comes down to access and digital management. Having one portal access with analytics has been a game-changer. Also imperative to automated account creation, both rostering and ID or directory creation! Security and MFA are now being required by insurance companies as well.	Integrating your User, Network, and Security Management into One "Pane-of-Glass" <i>Jason Cote, Senior System Engineer Aruba Networks</i> ----- In this session, we will explore the integration of security and device profiling into cloud management platforms. We will take a look at Aruba Central as a single platform to manage user experience, security, wireless, wired, and gateways. We will also explore Aruba's User Experience Sensors and how they can help you identify network issues and how to remediate before they become a problem. We will wrap up the session with a round table focused on exploring best practices for network management, security policies, and problem remediation.
	1:45 - 2:15 PM Afternoon Snack Break & Exhibitor Time Casco Bay Hall [Lower Level - G3]					
Session 4 2:15 - 3:00 PM	MLTI 2.0 - Spring 2022 Update <i>Beth Lambert & Brandi Cota</i> ----- Members of the Learning Through Technology team will provide important updates on MLTI 2.0 including the introduction of the new Technology Infrastructure Specialist, the work of the MLTI Software Advisory Group and the status of the program's external evaluation process. The team will also be seeking feedback on device use over the past school year.	What's New in Apple Education <i>Trey Bachner & Ryan Wiggin - Apple</i> ----- Great teachers and powerful technology is a powerful combination. Apple is committed to making products that unleash the potential in every student. Learn about the newest Apple products, tools, and programs for education that will accelerate student success and spark creativity in every learner.	Maximize Student Engagement with Nearpod! <i>Kara Baker - Nearpod</i> ----- An overview of Nearpod to be used for engaging students in classroom, virtual or in a hybrid setting. Feel free to bring your devices to participate, or watch our screen provide examples of bridging the engaging features of Nearpod for teachers' everyday use.	Total Cost of Ownership: How to Sustain your Technology <i>Megan Finnegan-Ratliff and Paula Currie - Second Life Mac</i> ----- Sustaining your technology is more important today than ever. We will discuss tips on best practices and how to leverage your retired devices to help support the purchase of new devices.	Data Analytics in the Classroom <i>Manos Stefanakos, Lisa Gionet & David Krongard - Integrity</i> ----- Integrity is an education technology service provider focused on enhancing teaching, learning, and administrative outcomes. For nearly two decades, Integrity has provided more than one-hundred public school districts, charter schools, and private and parochial schools with programs and services designed to converge information technology and education reform in the most affordable, reliable way. These programs and services include Network Infrastructure and Connectivity, Data Management and Analytics, School Safety and Security, and other Teaching and Learning Technologies.	Building Your K-12 Security Posture <i>Angie Veach & Mike Wilkinson - ENA</i> ----- Today's K-12 districts are facing ongoing security risks that require teams to analyze and assess their vulnerabilities. Risk assessment is a critical step in developing and supporting a security plan for a district. Additionally, it is critical for districts to support an ongoing security posture as they plan and launch technology initiatives, monitor network access, implement endpoint protection, review and procure insurance, and more. Join ENA and our partner Avertium as we discuss the evolving security needs of K-12 districts and share best practices for developing an incident response plan.
	3:10 PM Closing & Door Prizes Casco Bay Hall [Lower Level - G3]					

The **International Society for Technology in Education (ISTE®)** is a nonprofit organization that works with the global education community to accelerate the use of technology to solve tough problems and inspire innovation. Our worldwide network believes in the potential technology holds to transform teaching and learning. ACTEM is a valued affiliate of ISTE and connects with more than 70 other affiliates to share best practices, increase service to members, and strengthen impact in local education communities.
